Lesson - 16 Javascript linters

SkillUp, by Vitali Cernomschi

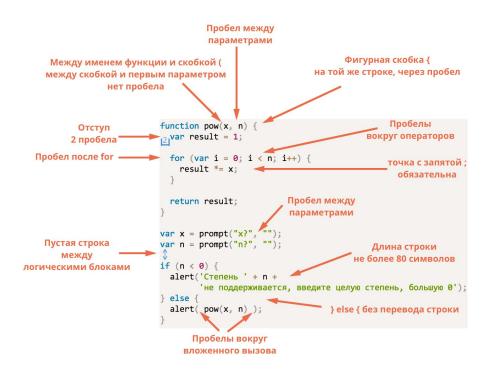

План занятия

- 1. Решение домашнего задания
- 2. Linters: ESLint
- 3. ESLint demo: https://eslint.org/demo/

Why you should always use a Linter?

- Helps to avoid errors
- Immediate feedback
- Automated checks and automated fixes
- Follow standards and best practices

Javascript Style Guide

Javascript Linters

ESLint

```
error Strings must use minglegoots
                 Expected indentation of A space characters but found 2
           error Expected indemtation of 4 space characters but found 2
           error Expected indentation of 4 space characters but found 2
           error Expected indestation of 4 space characters but found 2
           error Expected indostation of 4 space characters but found 2
           error Expected indoctation of 4 space characters but found
                 Expected indentation of 4 space characters but found 2
                 Unreschable code
                 Expected indentation of 4 space characters but found 2
          error Missing semiculon
          error Expected indentation of 4 space characters but found &
          error Missing semicalus
          errae Expected indentation of 4 space characters but found &
           error Expected indentation of 4 space characters but found 2
          error Expected indentation of 4 space characters but found 2
          error Missing sewicolon
           error Expected indentation of 4 tpace characters but found 2
                 Expected indentation of 4 space characters but found 2
           error Expected indentation of 4 space characters but found 2
          error Expected indentation of 4 space characters but found 2
           error Expected Industrialian of 4 space characters but Tound 2
           error Expected indentation of 4 space characters but found 2
          error Expected indentation of 4 space characters but found 2
           error Expected indentation of 4 space characters but found 2
          error Expected Indentation of 4 space characters but found 2
           error Expected Indentation of 4 space characters but found 2
          error Missing semicular
* 104 problems (184 errors, 8 warnings)
Minimum -/dev/ps_estint
                                                                                                    +lgitimoster/
```
